Journal of Behavioral Decision Making
J. Behav. Dec. Making, **22**: 534 (2009)

Volume 22 Keyword Index

adaptive toolbox, 510
advice, 390
advice utilization, 390
affective reactions, 91
anger, 475

Balloon Analog Risk Task, 435
bargaining, 475
betting markets, 318

choice, 252, 378
choice behavior, 455
cognitive appraisal, 475
cognitive illusions, 213
compensation, 138
compensatory models, 455
competence, 1
complexity, 318
conjunction fallacy, 213, 235
consequential thinking, 101
consequentialism, 338
consumer welfare, 138
criterion knowledge, 510

decision making, 45, 191, 378, 510
decision-making, 62, 252
deontology, 338
depletion, 153
dictator game, 191
disjunction fallacy, 235
dominance, 338
dual-process, 45

economic risk preferences, 367
emotion, 62, 153
emotions, 475
escalation, 252
evolutionary psychology, 171
exemplar cuing, 523, 528
exemplars, 523
expectations, 191
expertise, 1

fairness, 191, 475
fast-and-frugal heuristics, 510
favorite-longshot bias, 318
finance, 1
financial markets, 271
forecast adjustment, 390
forecasting, 390
framing, 490
free, 138
frequency format, 528
frequentist probability, 235

game, 101
genetics, 367

herding, 1, 271
heritability, 367
heuristic, 1

identifiable effect, 91
imaginability, 523, 528
information distortion, 338
intertemporal choice, 280
interval estimates, 490
Iowa Gambling Task, 435

joint and separate evaluations, 120
judgment and decision making, 20

law, 138
lay rationalism, 138
legal decision making, 138
loss aversion, 435
low-probability events, 523

markets, 1
memory, 378
mental accounting, 120, 252
Minnesota Twin Registry, 367
mood regulation, 153
mood repair, 153

NBA, 20
negations, 490
negative affect, 45, 153
non-compensatory strategy, 510
noncompensatory models, 455

order effects, 378
outcome evaluation, 338
path dependency, 280
path utility, 338
perceived risk, 45
perceiving persons and groups, 91
precautionary principle, 338
prediction, 271
preference, 62
preference reversals, 120
preferences, 378
priority heuristic, 455
probabilistic reasoning, 235
probability, 213, 528
probability judgments, 318
process-tracing, 171
public decisions, 91

random variation, 213
rationality, 213
recognition heuristic, 510
regret, 101
risk, 280, 338
risk decision making, 153
risky choice, 45
risky decisions, 435
role of experts, 390

self-justification, 252
sequential mate choice, 171
sex differences, 171
social influence, 1, 271
social norms, 191
source framing, 390
substance use, 435
sunk cost, 252

take the best heuristic, 455
the vividness effect, 20
threshold, 338
trust, 101
twins, 367

ultimatum, 475
uncertainty, 490
upper/lower limit asymmetry, 490

Zero, 138
